

MOMENTS OF IMPACT

In 2021, Stewards empowered their communities to engage in environmental action, resulting in **thousands of moments of impact:**

24,807 native trees, shrubs, and perennials planted to reduce erosion

17,950 hours volunteered to ensure a healthy environment for all

232 projects installed to catch polluted runoff

77,730 sq ft of invasive species removed to protect native species

10,038 residents engaged to reduce pollution in our communities
